TEAM PROJECTS & EXPERIENCE

Team Leader @ Naan Mudhalvan Projects

JAN '23 - MAY '23 & AUG '23 - OCT '23

- Led a team of four members in the development of an advanced breast cancer prediction application
- Employed deep learning techniques while effectively guiding the team, ensuring milestones were met on time
- Consistently motivated the team, encouraging innovative problem-solving and thorough communication throughout the project

Team Member @ Smart India Hackathon 2022 & 2023

SEP '23 - MAR '24 & NOV '22 - MAR '23

- Contributed as a team member to the ideation and implementation of an educational application aimed at improving the quality of education in rural areas (SIH 2022)
- Contributed as a team member to the ideation of a waste management system (SIH 2023)

INDIVIDUAL PROJECTS & WORKS

Digital Marketing works

Since the last 4 years I have been working with local organizations for their marketing needs and have been helping organizations of rural background have a strong digital marketing medium. I have also been the content writer for these organizations during my days there.

Unreal Engine 5 Models & Discord Bots

Using blender to create mini models for UE5 projects was one of my favorite hobbies. I've been tinkering with UE5 and Blender projects for a year now and yet there's more to learn.

Other Works

- Published an IEEE paper on my project at ICIET 2K24
- Member of EnSAv Club, an energy efficiency research group under IGEN

EDUCATION
